ORDER:

In the reference read above, the Chief Engineer, NTR Telugu Ganga Project, Tirupati has stated that an ayacut of 60,000 acres out of 78,451 acres under 274 M.I. tanks, coming under the SSG Canal is under distressed condition both in transplantation and after transplantation stages. He has furnished the details of the water requirement for the proposed ayacut, as stated below.

Proposed ayacut to be stabilized under MI Tanks	78451 Acres
Water Requirement at 10000 acres/ 1 TMC	7.500 TMC
Deduct the Quantity of water already available in MI Tanks	2.250 TMC
Balance water requirement from Kandaleru Reservoir	5.250 TMC

2. The Chief Engineer, NTR Telugu Ganga Project, Tirupati has also furnished the details of the Kandaleru Reservoir capacity as on 03.12.2017 along with its demands and stated that the water available for irrigation under TGP Canals is 4.990 TMC. He has therefore requested the Government to accord permission to release water @ 850 c/s to feed M.I. tanks to serve the standing crops which are under distressed condition in Nellore and Chittoor Districts.

3. After careful examination of the matter, Government, hereby accord permission to the Chief Engineer, NTR Telugu Ganga Project, Tirupati to release water @ 850 c/s from Kandaleru Reservoir to feed M.I. tanks to serve the standing crops which are under distressed condition in Nellore and Chittoor Districts as proposed in the reference read above.

4. The Chief Engineer, NTR Telugu Ganga Project, Tirupati shall take necessary further action in the matter.

(BY ORDER AND IN THE NAME OF THE GOVERNOR OF ANDHRA PRADESH)
